

Add Header/Footer, Custom fields in Report

1. Report name, Report execution time, User Id.
2. Create report formatting, font, alignment, back color etc.

The screenshot shows the Microsoft Visual Studio interface for SSRS Report Designer. The main window displays a report titled "Sales Report based on City". The report contains a table with the following structure:

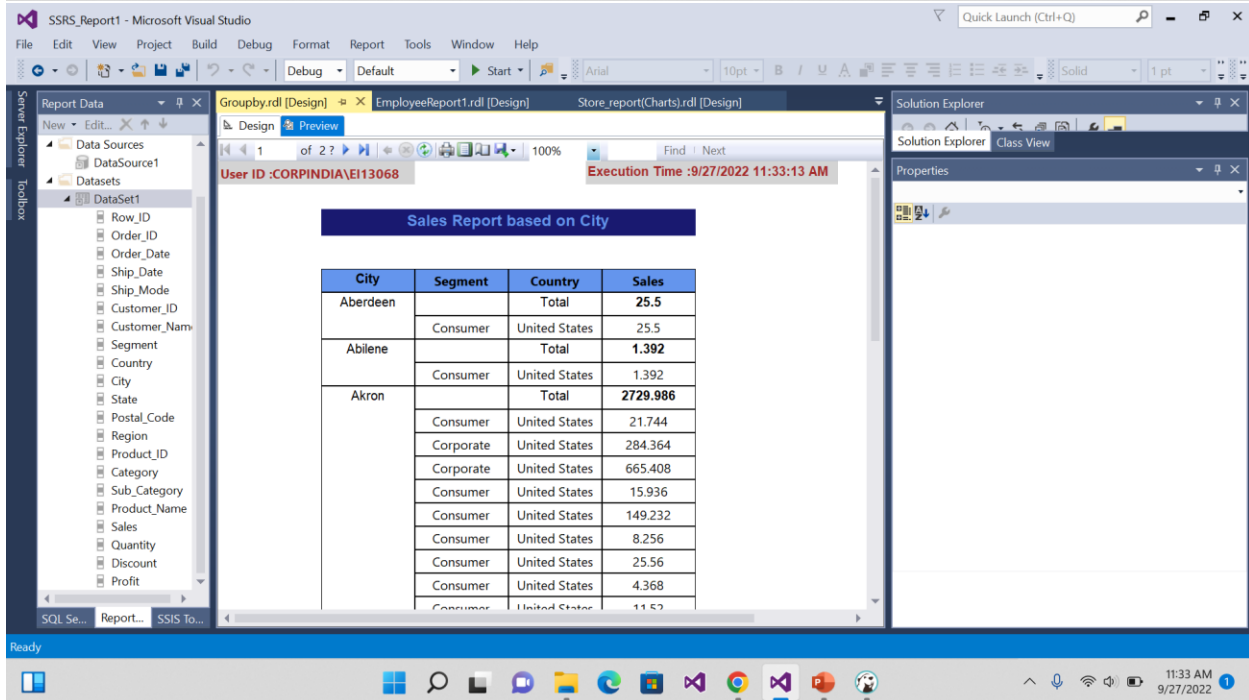

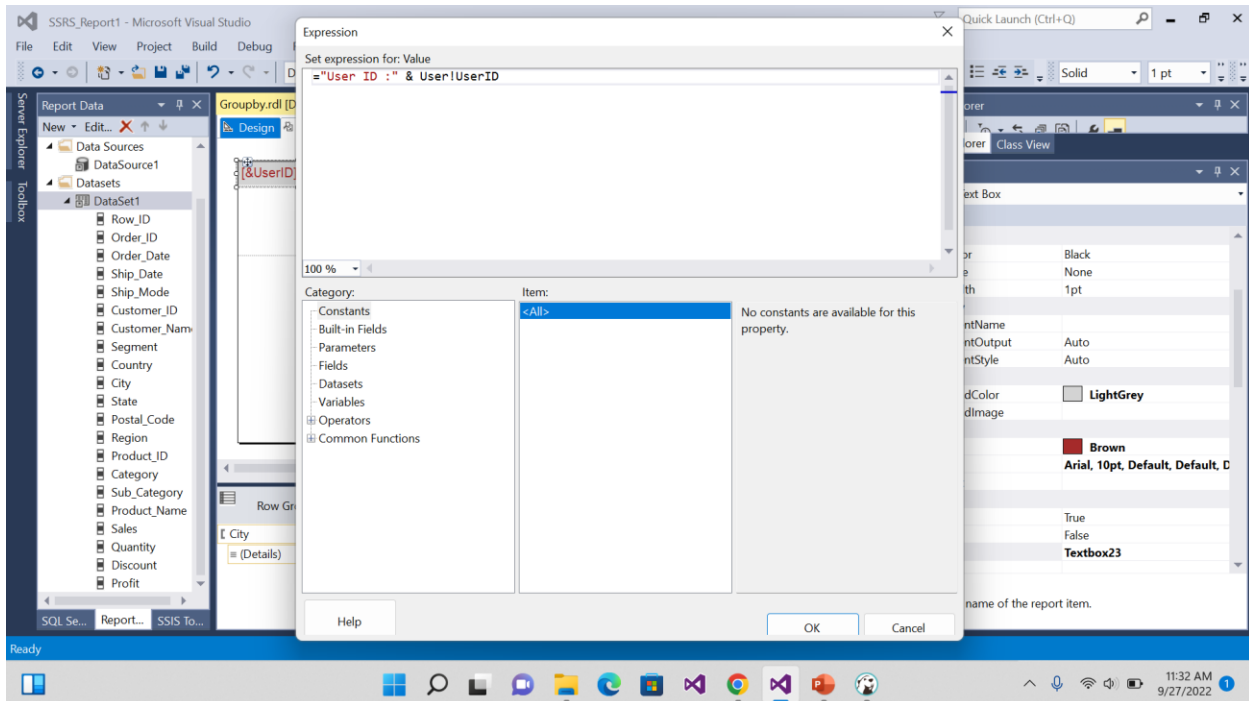

City	Segment	Country	Sales
[City]	[Segment]	[Country]	[Sum(Sales)]

The 'City' column is grouped. The 'Sales' column is calculated as [Sum(Sales)].

The 'Properties' window on the right shows the 'Text Box' properties for 'Textbox22'. The properties include:

- Border:** BorderColor: Black, BorderStyle: None, BorderWidth: 1pt
- Data Only:** DataElementName: Auto, DataElementOutput: Auto, DataElementStyle: Auto
- Fill:** BackgroundColor: LightGrey, BackgroundImage: Auto
- Font:** Color: Brown, Font: Arial, 10pt, Default, Bold, Def, LineHeight: Auto
- General:** CanGrow: True, CanShrink: False, Name: Textbox22, ToolTip: Specifies the name of the report item.

The 'Expression' window is open, showing the expression: `=\"Execution Time :\" & Globals!ExecutionTime`. The 'Category' list includes Constants, Built-in Fields, Parameters, Fields, Datasets, Variables, Operators, and Common Functions. The 'Item' list shows '<All>'. A message states: "No constants are available for this property."
